

Coal Mining & Processing's Annual Index for 1978 (Vol. 15)

A

Adversaries reach agreement on critical coal issues, April 96
Amax Argym Mine, Central City, KY, June 94
AMC International Mining Show, September 120
Anglo American Corp., South Africa, January 58

B

Bage, Carl E.
—Coal: The once & future king, January 55
—“Regulatory Chess,” June 51
Beardsley, J. A.
—Chemical boosts prep plant coal recovery, July 63
Better days ahead for Pittston, October 102
Black Thunder aims at 20 million tons, July 56
Black Thunder Mine, Campbell County, WY, July 56
Blohm, R. L. & Smith, J. W.
—Haulage technology increases low-seam output by 50 percent, February 52
Britton, Scott G.
—Water-spray fan increases face ventilation 120%, December 64
Buder, Manfred K.
—Coming in situ gasification, May 54
Buder, Manfred K. & Terichow, Oleg N.
—Underground coal gasification via the LVM process, February 64
Buntain, David
—UK revamps its mine transport, December 74

C

C&W Mining Co., Inc., Lisbon, OH, October 94
Carter coal goal is attainable, (NCA Hotwire), January 27
Carter, Russell A.
—Energy Fuels Corporation leads Colorado coal production, December 80
Coal prep sampling: An update, September 88
Coal: The once & future king, January 55
Chainless haulage makes longwalling safer, May 66
Changing face of coal worldwide, The, March 55
Chemical boosts prep plant coal recovery, July 63
Chemical stabilization ends fine coal refuse problems, January 63
Clinchfield Coal Co., Dante, VA, December 64
Coal's role in international energy policy, (NCA Hotwire), August 39
Columbus Conveyor's new prep plant, October 94
Coming: In situ gasification, May 54
Common sense coal preparation, March 58
Communications shortfall demands change, July 84
Conkle's warning monitor: The miner's Guardian Angel, September 106
Controlling airborne dust on conveyor belt systems, January 72

D

Delta Mining Co., Grantsville, MD, April 112
Delta Mining Co., Grantsville, MD, April 104
Delta Mining Co., Grantsville, MD, April 122
Delta's mining practices, April 112
Delta's new prep plant, April 122
Dependable submersible pumps dewater three Kaiser mines, February 74
Dickie, Lou
—Controlling airborne dust on conveyor belt systems, January 72
Does your preparation plant score par performance?, September 82
Donaldson Co., Minneapolis, MN, April 88
Don't Blame UMW or BCOA, (Comment), May 7
Dragline makes economic sense at Kanch mine, August 78
Dravo Corp., Pittsburgh, PA, October 80
Dustless drilling is here, April 88

E

Elk, Frank A.
—Common sense coal preparation, March 58
End-loader accelerates overburden removal, June 94
Energy Fuels Corporation leads Colorado coal production, December 80
Engines—A new idea catches on, September 112
Exhibition in print, September 122
Expanding coal research now, (NCA Hotwire), April 140
Exploring costs cut with dual-tube drill, September 116

F

Falkie, Thomas V.
—Let's get our R&D act together, April 86
Federal leasing? In the 1980s, perhaps, (NCA Hotwire), September 49
Forecast 78... and beyond!, January 52
Forest, William
—New horizons for remote control, February 61
Forty years of NEP, (Comment), September 11
Forty years of NEP (continued), (Comment), October 11
Front shovel works narrow benches on contour job, June 88
Frontier-Kemper Constructors, Evansville, IN, November 62

G

Gardner, Samuel A.
—Methanol: Coal-derived energy for the future, May 60
Gawinski, Michael
—Planning solves permit problems for 11-million-ton terminal, October 80
Government policy and inflation, (NCA Hotwire), November 41
Government reports leave much to be desired, (NCA Hotwire), February 90
Greenwich Collieries, Div. of Penn. Mines Corp., Ebensburg, PA, March 48
Greenwich Colliery, Garman, PA, November 66
Greenwich gets record output from its low seam longwall, March 48
Ground freezing works for three projects, March 67
Guccione, Eugene
—Better days ahead for Pittston, October 102
—Changing face of coal worldwide, The, March 55
—Conkle's warning monitor: The miner's Guardian Angel, September 106
—Dustless drilling is here, April 88
—News of the future, June 11
—Railroads vs pipelines, February 48
—Shortages, blackouts, & joblessness, July 61
—Wage incentives: Pros & cons, August 51
—Westmoreland has what it takes, December 68
—What causes wildcat strikes?, October 97
—Why industry can't cope with the 1977 Surface Mining Act, June 66

H

Handling prep plant refuse with vibrating equipment, September 100
“Hands-on” training for prep plant operators, November 66
Haulage technology increases low-seam output by 50 percent, February 52
Holz, Peter
—South African mines prepare for increased coal export, January 58
Hopeful sign on governmental obstacles, A, (NCA Hotwire), July 41
How a small operator gets big productivity, July 66
How to calculate idler spacings for more economical belt conveyors, January 66
How to plan a disaster, (Comment), July 9
How to prevent wildcat strikes, (Comment), December 9

I

Institutionalized discrimination, (Comment), January 9
Investment & financial analysis: An update, June 96
Investment & financial analysis—Part 2: Prep financing & revenue estimation, July 72
Investment & financial analysis—Part 3: Cost estimation for coal prep financing, August 64
Ironman, Ralph
—New mine on an old site, A, November 76
Island Creek, Craigsville, WV, November 48

J

Joy Manufacturing Co., Franklin, PA, May 62

K

Kaiser Steel, Sunnyside, UT, February 74
Kane Services, Inc., Houston, TX, August 78
Kraft, Betsy
—Training to cover all the bases, May 50

L

Lee-Norse chief executive insists on quality products,

full service, August 60
Lee-Norse Company, Pittsburg, PA, August 60
Let's get our R&D act together, April 86
Licking River Terminal, A showcase in coal handling, The, October 74
Loader recovers maximum from barges, October 90
Lockwood, Don L.
—A supply-demand forecast thru the year 2000, August 55
Longfellow, Robert L.
—Chemical stabilization ends fine coal refuse problems, January 63
Lowell, Harold L.
—Does your preparation plant score par performance?, September 82
Lynn Land Co., Gilbert, WV, June 80

M

Maintenance-free batteries are here, November 70
Managing U.S. Steel's mines, November 58
Mance, F.V.
—How to calculate idler spacings for more economical belt conveyors, January 66
MAPCO opens Maryland's largest mining complex, December 58
Marion Power Shovel Div., Dresser Industries, Inc., Marion, OH, February 84
Marson Coal Co., Pickens, WV, July 66
Mason, Richard H.
—Dragline makes economic sense at Kanab mine, August 78
—Front shovel works narrow benches on contour job, June 88
—Greenwich gets record output from its low seam longwall, March 48
—How a small operator gets big productivity, July 66
—Mining projects add building space in mountainous areas, June 80
—Multiple stripping methods yield efficient coal recovery, November 48
—Surface mining regulations spell disaster in Appalachia, June 70
—United States Steel solves cleaning plant dust problems, February 56
Methanol: Coal-derived energy for the 80's, May 60
Mettki mines, Garrett County, MD, December 58
Mining projects add building space in mountainous areas, June 80
Mobile conveyor handles sticky problem, October 88
Modular coal washing plant, September 94
More coal, more equipment, means more power for Iowa Electric, October 86
Morgan, W.C. and Schermerhorn, J.G.
—Stripping with scrapers and dozers, June 73
Multiple stripping methods yield efficient coal recovery, November 48

N-O

NALCO, Oak Brook, IL, July 63
National energy plan, anyone?, (Comment), March 7
New epoxy-lined pipes fight wear and corrosion, March 73
New horizons for remote control, February 61
New mine on an old site, A, November 76
New twist for making products from coal, A, April 78
News of the future, (Comment), June 11
Nickeson, Floyd H.
—Modular coal washing plant, September 94
—Why Delta keeps growing, April 104
—Delta's mining practices, April 112
—Delta's new prep plant, April 122
Nolden, Carol
—Communications shortfall demands change, July 84
—Forecast 78... and beyond!, January 52
—Syn fuels from coal rate high on energy agenda, May 72

P-Q

Peabody Coal Co.'s No. 10 Mine, Pawnee, IL, June 114
Perry Brothers Coal Co., Sharon, PA, September 116
Peterson, William H.
—A Time for Truth—Time to act, October 106
Planning solves permit problems for 11-million-ton terminal, October 80
Poundstone, William N.
—SO₂: A burning issue, November 53
Prairie Creek Station, IA, October 86
Preparation/Processing
—AMC International Mining Show, September 120
—Chemical boosts prep plant coal recovery, July 63
—Chemical stabilization ends fine coal refuse problems, January 63
—Coal prep sampling: An update, September 88

—Columbus Conveyor's new prep plant, October	94
—Coming In situ gasification, May	54
—Common sense coal preparation, March	58
—Delta's new prep plant, April	122
—Does your preparation plant score par performance? September	82
—Handling prep plant refuse with vibrating equipment, September	100
—"Hands-on" training for prep plant operators, November	66
—Investment & financial analysis—Part 2: Coal prep financing & revenue estimation, July	72
—Investment & financial analysis—Part 3: Cost estimation for coal prep financing, August	64
—MAPCO opens Maryland's largest mining complex, December	58
—Methanol: Coal-derived energy for the future, May	60
—Modular coal washing plant, September	94
—New epoxy-lined pipes fight wear and corrosion, March	73
—New mine on an old site, A, November	76
—New twist for making products from coal, A, April	78
—Preventive maintenance & lubrication pay off at Peabody's No. 10 mine, June	114
—South African mines prepare for increased coal export, January	58
—United States Steel solves cleaning plant dust problems, February	108
Preparing mobile equipment for winter, September	108
Preventive maintenance & lubrication pay off at Peabody's No. 10 Mine, June	114
Pros & cons of underground ventilation systems, June	110

R

Railroads vs pipelines, February	48
Raise borer drills record-diameter shafts, November	62
—Regulatory Chess," (NCA Hotwire), June	51
Rexnord, Inc., Brookfield, WI, March	73
Ripping overburden pays off, June	86
Roeder, Charles L.	
—New epoxy-lined pipes fight wear and corrosion, March	73
Roessler, Malcolm L.	
—Handling prep plant refuse with vibrating equipment, September	100

S

Savidge, Ken	
—Chainless haulage makes longwalling safer, May	66
Schenck, George H.K.	
—Investment & financial analysis: an update, June	96
—Investment & financial analysis—Part 2: Coal prep financing & revenue estimation, July	72
—Investment & financial analysis—Part 3: Cost estimation for coal prep financing	64
Schmidt, Richard A.	
—Why industry needs its own R&D Institute, July	88
Scott, Frank E.	
—Lee-Norse chief executive insists on quality products, full service, August	60
—Managing U.S. Steel's mines, November	58
Shields, William G.	
—"Hands-on" training for prep plant operators, November	66
Shortages, blackouts, & joblessness, July	61
Silverdale Colliery, (North Staffordshire, England), November	76
Smiley, Carl H.	
—Engines—A new idea catches on, September	112
—Maintenance-free batteries are here, November	70

—Preparing mobile equipment for winter, September	108
Smith, J.W. & Blohm, R.L.	
—Haulage technology increases low-seam output by 50 percent, February	52
SO ₂ : A burning issue, November	53
SO ₂ emission fraud, The, (Comment), November	9
South African mines prepare for increased coal export, January	58
Sprouts, Mark W.	
—Black Thunder aims at 20 million tons, July	56
—MAPCO opens Maryland's largest mining complex, December	58
—T&S mines thin seams on steep slopes, October	108
—Training to profit from the industry's changes, November	72
Stirring memories and desires, (Comment), April	11
Stokes, C.A. & Udani, L.H.	
—New twist for making products from coal, A, April	78
Strip mining mess, The, (NCA Hotwire), March	39
Stripping with scrapers & dozers, June	73
Supply-demand forecast thru the year 2000, A, August	55
Surface machines of the 80's—What will be different?, February	84
Surface mining	
—AMC International Mining Show, September	120
—Black Thunder aims at 20 million tons, July	56
—Delta's mining practices, April	112
—Dragline makes economic sense at Kanab mine, August	78
—Dustless drilling is here, April	88
—End-loader accelerates overburden removal, June	94
—Energy Fuels Corporation leads Colorado coal production, December	80
—Engines: A new idea catches on, September	112
—Exploring costs cut with dual-tube drill, September	116
—Front shovel works narrow benches on contour job, June	88
—Maintenance-free batteries are here, November	70
—Mining projects add building space in mountainous areas, June	80
—Multiple stripping methods yield efficient coal recovery, November	48
—Preparing mobile equipment for winter, September	108
—Ripping overburden pays off, June	86
—Stripping with scrapers & dozers, June	73
—Surface machines of the 80's—What will be different?, February	84
—Surface mining regulations spell disaster for Appalachia, June	70
—T&S mines thin seams on steep slopes, October	108
—They sell "all but the squeal" at Waterloo, March	64
—Why Delta keeps growing, April	104
—Why industry can't cope with the 1977 Surface Mining Act, June	66

Surface mining regulations spell disaster for Appalachia, June	70
Symonds, D.F. & Charmbury, H.B.	
—Coal prep sampling: An update, September	88
Syn fuels from coal rate high on energy agenda, May	72

T

T&S mines thin seams on steep slopes, October	108
Tax incentives for capital formation, (NCA Hotwire)	
May	31
Terichow, Oleg N. & Buder, Manfred K.	
—Underground coal gasification via the LVW process, February	64
They sell "all but the squeal" at Waterloo, March	64
Tien, Jerry C.J.	
—Pros & cons of underground ventilation systems, June	110
Time for Truth — Time to Act, A, October	106

Training goals and programs, (NCA Hotwire), December	
Training to cover all the bases, May	50
Training to profit from the industry's changes, November	72
Trouble in TV country, (Comment), February	9
Trouble with solar energy, The, (Comment), August	9

U-V

Udani, L.H. & Stokes, C.A.	
—New twist for making products from coal, A, April	78
UK revamps its mine transport, December	
Underground coal gasification via the LVW process, February	64
Underground mining	
—AMC International Mining Show, September	120
—Chainless haulage makes longwalling safer, May	66
—Conkle's warning monitor: The miner's Guardian Angel, September	106
—Dependable submersible pumps dewater three Kaiser mines, February	74
